FORGOTTEN.

We believe that people are troubled with loss of memory at the first of the year than at any other time. That "Little Bill" waits in vain on so many. Perhaps its very smallness causes it to be over looked.

We are pushing the Grocery business up to the point where it is most beneficial to our customers, but it takes money to do it. The quicker our customers pay cash the quicker we can do the same and each will be benefited by trade discounts. All bills due the old firm be long to us, and we need the money now. Don't forget we sell you more groceries for the money than anybody.

—Michael Rasmussen, formerly of Forest City, but now a resident of Skyles town, N. D., is well pleased with his new home. He says he is desiring to make a change cannot do better than to go to that state—good stock and small grain country, sure crops. He invites correspondence.

—Ed. H. McIntyre, well known here, being a nephew of Mrs. D. E. Bennett, was in a wreck in the Hannibal yards in St. Joseph, on the evening of January 8, 1898. He was severely shaken up, but is now on his run again. Several others were badly injured, amputation of a leg being necessary in one case.

—H. T. Alkire has the farm of Daniel Kunkel, Sr., for rent, at \$144 per cent for the year, beginning March 1, 1898, and ending March 1, 1899. E. church, this city, but now of Kansas City, officiating in marriage. Mr. Charles Kutz and Miss Carrie Kraemer. THE SENTINEL extends congratulations and wishes this young couple many years of happiness and prosperity.

—We are sorry to learn of the sudden death of Fred Hartley from neuralgia of the heart at the residence of Cole Jackson on Big Lake, last Saturday, January 10, 1898. He was a promising and industrious young man, and will be remembered by many who went to the lake hunting and fishing. The funeral was conducted from the home of the deceased and the remains were laid to rest in the cemetery at that church.

—In Denny & Allen's ad. last week there was an error, caused by wrong figures. They offered two bargain outfits, No. 1 and No. 2. No. 2 outfit was mislabeled \$25.00, which certainly was too low for the articles enumerated, but it was wrong, and the blamed change were kind of want under the collar about the mistake, and nothing would do but that we make the correction. Well, here it is, \$22.00 instead of \$25.00 if they want to get their goods away we cannot help it.

Announcement.

I have opened up a short order restaurant and bakery. I would like the patronage of my old friends of Oregon and vicinity, when in Forest City. Next door south of barber shop. L. M. GUILD.

—The valuation of live stock received at Chicago for 1897, in round figures, was as follows: Cattle, \$117,550; hogs, \$123,000; horses, \$75,321,000; sheep, \$14,400,000; horses, \$7,800,000. Now that Texas longhorns are disappearing so rapidly, and high-grade Short Horns, Herefords, and black-and-white cattle are so common in the southwest as well as in the West, it is not surprising that it may gain the name "Texas" and Westerners as applied to cattle will lose their significance.

—The experiments with sugar beets in the state of Missouri have not been altogether satisfactory, but a further trial may develop something more favorable. As might be expected, the best results could not be obtained without expert preparation. Farmers lacked due attention may not have been strict. It may be shown that certain sections of the state, at least, are well adapted to this industry. It is usually it may gain in favor among agriculturists. We believe Holt county can grow sugar beets profitably, and we hope the pupils of his class in our city will be able to make sugar beet growing a success.

—Prof. Hamill, the educationist and his accomplished daughter, will give one of their entertainments at the M. E. church in this city, on this Friday evening, January 15th. Prof. Hamill is a student in vocal expression, and in addition to being a reader and impersonator of the highest order, he is also the author of "Hamill's Elocution," a book which is recognized as one of the best extant on that subject. He is a teacher of large and successful experience and the pupils of his class in our city are highly pleased with the instruction which they are receiving. Judging from the press notices where Prof. Hamill and Miss Hamill have given entertainments, we are led to believe that a rare treat is in store for those who attend Friday evening. The program will embrace dramatic selections, and a matinee, and a per cent of the proceeds will be donated by Prof. Hamill to our public school library.

—The New Year 1898 is at hand. What are the good things in store for our beautiful little city of Oregon. That of course will depend much upon her own people. Let every citizen resolve to do for Oregon and Holt county, and the year 1898 will see a material advance all along the line. The city has had the past year a fair amount of building, mostly residences. A people are generally employed and there is a demand for laborers so that those who are able and willing to work need not be idle. Prices of common commodities are low. The people of the country have to sell here for well up and the outlook for the future is bright. If a man has nothing to sell he cannot expect profit by the good prices. The country is prosperous and there is no reason why Oregon surrounded by a thrifty population and business on a substantial basis, should not forge to the front and build up. The outlook for a prosperous year is flattering. With water works and electric lights almost at hand, now let us have a motor line.

—John H. Kunkel, living one and a half miles southeast of this city, sent to the agricultural department at Washington, two specimens of sugar beets, and asked for an analysis. He has received a return from the same, signed by H. W. Riley of the chemistry department. The analysis states that the average weight of beets was 38 ounces; that they contained 14 per cent of sugar; per cent in the juice was 11.2. This is a paying analysis, and we hope Mr. Kunkel, and Mr. Daniel Smith, of Big Lake, who also has produced beets that yielded 15 per cent sugar, will favor us with an article as to how they secured these results; when planted; how planted; character of soil and mode of cultivation.

—Every Missourian who attended the celebration of Missouri day at the Nashville exposition on October 16, sincerely regretted that he could not take with him a Missouri's wonderful resources and productions, as our state alone could easily have covered the whole exhibit. Now that Gov. Stephens has appointed a commission to arrange for a state exhibit at the Trans-Mississippi and International exposition, to be held at Omaha, Neb., from June 1 to November 1, next year, it is to be hoped that the people of Missouri will make every effort to make their exhibit a credit upon our state and our people. We hope our local horticultural societies will take steps to secure the products of their own soil, and the coming of the fair will make our exhibit a credit upon our state and our people.
